

Act Report

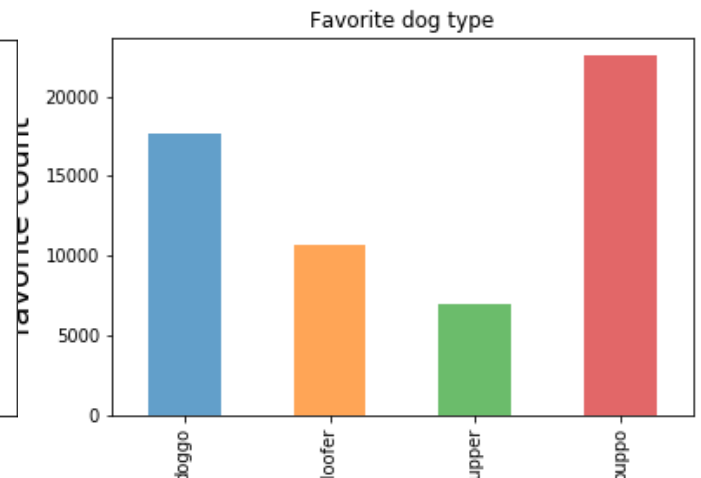

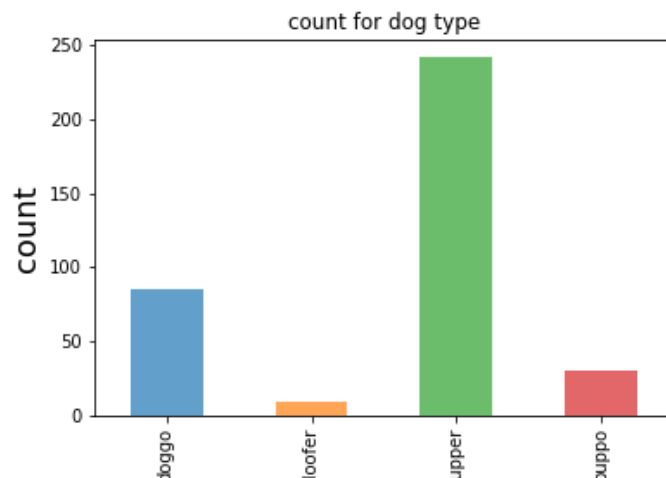

Introduction

The dataset is the tweet archive of WeRateDogs from Twitter. This report is a summary of the data analysis, and visulization conducted in Python.

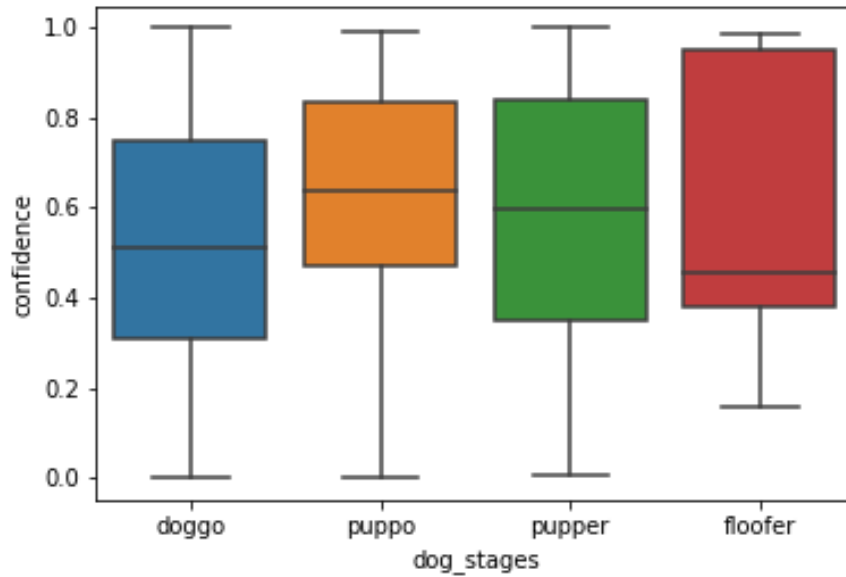

1. The top 10 popular names for dog are Lucy, Charlie, Cooper, Oliver, Tucker, Penny, Sadie, Lola, Winston, and Daisy.

2. Puppies are posted on tweet most, but type of dog received the highest favorite counts are puppies.

3. It seems that the probability of prediction the breeds of dog is dependent on the dog types. The neural network algorithm give higher accuracy for predicting floofer.

4. This is Atticus. Isn't he cute? No wonder he is the highest rated dog to date -- 1776/10 !!
